

Stanly County Airport - Thermal Radar Technology Open House

October 14, 2021

Stanly County
AIRPORT

Technology - Refreshments - Barbecue
Don't Miss This Event!

Stanly County Airport has partnered with Thermal Radar to provide a cost-effective perimeter protection solution to mitigate threats within the airport environment.

Want to learn how Thermal Radar uses a single spinning sensor to detect threats hundreds of meters in every direction and provide video imagery of the intruder?

Stop by the airport between the hours of 9 AM and 4 PM on October 14th and talk with Thermal Radar's Steve Mann.

43222 Lowder Aviation Parkway
New London, North Carolina 28127
